Hi Rick,

Thanks for pulling that info out of the 2017 proposal. I'll check with Lucita to see if she thinks we can

Ex. 5 Attorney Client (AC)

Here is the link to the comments received on the 2017 proposed rule.

<https://www.regulations.gov/docketBrowser?rpp=25&so=DESC&sb=commentDueDate&po=0&dct=PS&D=EPA-HQ-OAR-2012-0788>

You can search the comments for key words. Unfortunately, you have to open each comment to read it and the comments may include more than one document. I tried exporting the comments, but what I got was a .csv file that lists an index of the comments and provides a website for each comment. I saved the file as a spreadsheet and attached it so you can see what I mean.

Hi Valois,

Excellent write up.

My only suggestion might be to directly restate/summarize some of the points made in the Part 192 document that support the case for geochemical modeling. I wasn't able to comment on the Part 192 document, so I've copied some example sections to the attached Word document. Adding such text might help answer some of Lucita's questions.

Ex. 5 Deliberative Process (DP)

documents provided by Cadmus. I'm curious – any idea where could I find public comments on the Part 192 document, particularly with respect to the 7 modeling elements listed on p. 7410?

Hi Rick,

Ex. 5 Attorney Client (AC)

My justification document is short – just two sentences over 4 pages. I hope it conveys how I want to use the OAR document as a reference for the Fact Sheet.

Thanks!

Thanks, Valois. Here are my thoughts about the draft technical report and our ability to cite to it.

Does that help? Let me know if you want to discuss.
